WILHELM BOMBER PLANTS HEAVY BLOW

German Plants Are Basted By R.A.F. Bombers

By WALLACE CARROLL

British Press Press. Exclusive Cable to The Edmonton Bulletin.
LONDON, Aug. 7.—Arthur Greenwood, minister without portfolio, told the House of Commons today that British bombing raids had heavily damaged German industrial areas and "seriously interfered" with production for the Nazi war machine.

PRESS IS BEST FOR ALL WAR INFORMATION

Minister of War Services Says Normal Channels Are Superior

OTTAWA, Aug. 7.—The government has decided against centralization of its public information offices and will continue to rely on regular channels of public information for distribution of news of the war effort.

Hon. J. G. Gardiner, minister of national war services, under whose administration public information is included, said in a statement issued today that "the government agrees that public interest can be served best by collection and distribution of news bearing on Canada's war effort through regular functioning channels, particularly when the medium is the press."

ACTS ON ADVICE

He was commenting on advice received from D. B. Rogers, editor of the Regina Leader-Post, who had been asked by the minister to conduct a study of existing public information facilities in Ottawa.

Mr. Gardiner stated that it was the expressed opinion of Mr. Rogers that high-powered publicity and propaganda organizations whose aim was to control and point the news in a given direction had failed utterly in all democracies to satisfy either the people, the newspapers, or the governments involved.

"There is no more justification for interference with the normal flow of news in time of war than in times of peace," Mr. Rogers said, "and governments which were truly interested in securing an intelligently-informed public opinion could best bring this about by increasing the accessibility of news at its source."

PRESS BEST MEDIUM

The minister pointed out that in general Mr. Rogers had favored centralization and emphasized the importance of relying on utilization of existing channels of news information to as great an extent as possible.

Mr. Rogers' main conclusion might be stated in his own words: "Let the news be released in the regular way in which it is now released," Mr. Gardiner, "the government considers it wise to continue to proceed along that line in its relationship with the press."

Youngest Mayor Resigns Office

PORT HOPE, Ont., Aug. 7.—Believed to be Canada's youngest mayor, 30-year-old H. R. S. Ryan of this town last night tendered his resignation to council in order to carry on military duties. He is a second lieutenant in headquarters company, 1st battalion of the Midland Regiment stationed in London.

Trawler Sunk

LONDON, Aug. 7.—The admiralty announced tonight that the trawler *Albatross*, River Clyde had been sunk by a German mine.

AN INDEPENDENT NEWSPAPER IN PUBLIC SERVICE

Appointed Special Assistant

Col. E. L. M. Burns, formerly general staff officer at Canadian military headquarters in London, has been appointed special assistant to Maj. Gen. H. D. G. Creer, chief of the general staff. In the above picture Col. Burns is shown handing official papers to one of his orderlies.

Premier Critical Of Ottawa Action On Alberta Bank

Statements That Dominion Government Has No Power To Grant Bank Charter Puzzling To Aberhart

Declaring that he hoped no narrow political prejudices or sectional interests would be permitted to mar sincere Alberta efforts to share in the solution of tremendous problems of the day, Premier William Aberhart on Wednesday expressed surprise at the length to which some members of parliament had gone "in heaping insult on injury in their consideration of Alberta's application to incorporate a provincial bank."

The Premier's statement was made after consideration of the proceedings in committee and after the return of Hon. Solon E. Low, provincial treasurer, who represented the province at the committee sittings.

Commenting on the whole situation regarding the treatment of the Alberta application, Premier Aberhart said:

"Ever since our country was plunged into the terrific struggle against the menace of Nazism and Italian aggression the Alberta Government, on behalf of all the people of the Province, has done its utmost to co-operate with the federal government and with the governments of the other provinces in the dominating national task of putting forth our maximum war effort. It has been our endeavor to push all political antagonism and party differences into the background in the imperative cause of federal unity and national solidarity."

As the people of Alberta know we have gladly donated buildings and comforts for our troops; we have banded the Province's engineers and surveyors to the Federal authorities to help in the construction of camps and air bases; at the expense of our own highway program, we have available to the federal government a portion of our up-to-date machinery for airport construction work; and we have set up agricultural boards and committees to co-operate with the Federal and other Provincial governments.

BUFFALO PARK AT WAINWRIGHT IS FOR MILITIA

OTTAWA, Aug. 7.—Wainwright National Park in Alberta has been abandoned as a buffalo sanctuary and taken over by the national defense department as an artillery practice range and training ground.

Resources Minister Creer told the House of Commons during consideration of the estimates Tuesday that the park, since its establishment cost \$500,000, the minister of defense said it comprises about 10½ square miles and at the time the animals there had increased to nearly 3,000. There were also many deer. Many of the buffalo and deer were found to be affected by tuberculosis.

Original purpose of the reservation was to conserve wild life, particularly buffalo, but meanwhile herds have been established at Elk Island, Riding Mountain Park in Manitoba and Wood Buffalo Park in Northern Alberta. Maintenance of herds was now assured.

Mussolini Prepares For Drive On Egypt, Kenya: Somaliland Is Attacked

CAIRO, Aug. 7.—A British communique today announced the Italians have entered Zeila, Gulf of Aden port in British Somaliland, and captured Hargeisa with a strong force after a 30-mile march through the desert. Oadweina, a third objective of the Italians who started their offensive, also was occupied yesterday, by a column estimated at 2,000 men equipped with guns and armored vehicles, the British command announced.

By NED RUSSELL
British Press Press Exclusive Cable to The Edmonton Bulletin

LONDON, Aug. 7.—Italy has concentrated strong forces on the Egyptian frontier of Libya and there are indications that a general advance is imminent. British military circles said today.

It was added that there had been no indication that any Italians as yet had crossed the border. "There is a big concentration of Italians, at least two divisions (perhaps 30,000 men) in the northern frontier area. We have only a small mobile force in that region," a spokesman said.

"The first phase of Italian operations in the Egyptian desert has lasted longer than was expected. From the moment of French capitulation one must have expected a rapid immediate advance stimulated by the German command."

Commenting on the Italian offensive against British Somaliland a British military informant said:

"The port of Berbera is about 100 miles from the Italian frontier in Somaliland and even if the Italians do capture it they could not hold it because they do not command the sea."

The spokesman estimated that Italian air squadrons had been strengthened 6,000 to 7,000 men representing two colonial brigades.

STRENGTH NOT KNOWN

Military sources said they had no knowledge of the strength of the Italian force moving on Gargara and Oadweina in Somaliland. On British side they said there are the partly-mobilized Somaliland Camel Corps, some of the King's African Rifles Regiment, and other troops under Brigadier A. R. Chuter.

It was suggested that Mussolini was hiding mainly for prestige in the Somaliland attack and doubt was expressed that British command of the Red Sea was threatened.

The Press Association, which has excellent sources of information, reported:

FACE SAVING TACTIC
"It is a face saving tactic designed, it is strongly believed in London, to strengthen morale in Italy. But there are tremendous dangers of resistance. The penetration cannot be described by the most optimistic Rome propaganda as a 'Cobra's blow' for the Italians. In fact, the view is strongly held in London that the Mussolini gamble for strategic victory has failed."

It was suggested that Mussolini was hiding mainly for prestige in the Somaliland attack and doubt was expressed that British command of the Red Sea was threatened.

The Press Association, which has excellent sources of information, reported:

Treaty Renewed
MOSCOW, Aug. 7.—A new Soviet Russian-United States trade treaty was signed last night in London for one year. The documents are identical with last year's treaty in every particular except for one detail not yet announced.

Formerly Exempted Classes Required To Be Registered

OTTAWA, Aug. 7.—Regulations broadening and intensifying national registration were issued today in an order-in-council.

Exempted classes—nurses, citizens on active service, inmates of asylums and penitentiaries—are now ordered to be registered.

Employers are also required to report to the national war services department and the nearest police officer the name and address and occupation of any unregistered employee. The same penalty is provided for failure to carry out this instruction.

The new regulation governing registration of formerly exempted

Britain Seeks To Buy Guns, Tanks In U.S.

WASHINGTON, Aug. 7.—The British government started negotiations here today for "hundreds of millions of dollars" of tanks, artillery, and other war supplies in addition to all previous Allied orders.

Arthur B. Purvis, chief British purchasing agent, who presented the program to treasury secretary Henry Morgenthau, told reporters that his government was seeking the purchase of many types of supplies not previously purchased in the United States. He emphasized tanks and field artillery.

Britain previously bought some anti-aircraft guns from the United States but had left over from the first war. But the new program is for new equipment.

Purvis declined to estimate to what figure the new program might expand total British purchases in the United States, but previous purchases, mostly airplanes, amounted to well over \$1,000,000,000.

He explained that the new program is for material to be delivered a considerable time in the future.

He indicated that previous purchases had been made, in a large extent, on the basis of immediate needs, and that new programs are being shaped on anticipated future needs.

MORATORIUM ON FARM DEBTS FOR MANITOBA LIKELY

WINNIPEG, Aug. 7.—Premier Bracken yesterday wired government and opposition leaders in the House of Commons and the Senate that Manitoba might declare a general moratorium on farm debts.

The Premier said that the bill to restore it is now being considered by the federal government.

In his wire, the Premier said that leaving the act in force in Alberta and Saskatchewan and deferring it to Manitoba as "logical, uniform and desirable."

Otherwise the government of Manitoba cannot undertake that circumstances will not force it to pass a general moratorium with respect to farm debts.

PREMIER KING PARTY LEADER FOR 21 YEARS

OTTAWA, Aug. 7.—A bouquet of 21 red roses adorned the desk of Prime Minister Mackenzie King in the House of Commons today. They were the gift of his followers on the occasion of the 21st anniversary of his election as national leader in 1919.

Formal verbal congratulations to the Prime Minister were voiced by Hon. George Sifton, Conservative leader, and Justice Minister Lapointe, dean of the house.

Mr. Lapointe said it was a remarkable achievement for a man to be leader of his country after 21 years in party leadership. Mr. King had come through six general elections, five of them successfully.

"Today is his 21st birthday," said Mr. Lapointe, "he is not only the man of a party but the man of Canada," of his country. He represents the spirit of Canada, its determination, its vigor, its will to achieve victory.

Resources Minister Creer, the senior privy councillor in the cabinet, said:

"The chief registration of any 'special class or classes of persons' is taken and these are being according to regulations."

Study Of A Princess

PRINCESS MARGARET ROSE, who celebrates her twentieth birthday today, is a fond of painting and is seen here engaged in her work. Her father has declined to send her children to safety of Canada.

OTTAWA HOUSE IS ADJOURNED UNTIL NOV. 5

Members Instructed To Be Ready To Assemble Earlier If Necessary

OTTAWA, Aug. 7.—The first session of Canada's 19th parliament adjourned at 10:12 a.m. M.T. today after sitting since May 16. It will convene again on Nov. 5.

While the adjournment was taken to Nov. 5, the members of both the Commons and the Senate were instructed to be ready to assemble earlier should developments necessitate calling parliament before that date.

ROYAL ASSENT

New social and war legislation, reaching deep into the life of the country, income law today when Lord P. Duff, deputy governor.

AXIS TO LIMIT WAR TO EUROPE GAYDA AVERS

By REYNOLDS PACKARD
United Press Exclusive Cable to The Edmonton Bulletin

ROME, Aug. 7.—The Axis powers will limit the war to Europe and have no intention of extending the conflict to the Americas, Virgin Gayda, authoritative Fascist editor, wrote today in the Giornale d'Italia.

Referring to statements by U.S. secretary of State Cordell Hull, the Gayda editorial said that "it is evident Mr. Hull would like to alarm all the American nations with the threat of war, which more or less immediately could be swayed today in the windows."

"It must be stated once again," the editorial continued, "that the Axis is completely without foundation, and is arbitrary and unbalanced and provocative. The Axis never thought and never will think of menacing other continents or of setting the war to America."

SUB DESTROYED AFTER SINKING BRITISH SHIP

LONDON, Aug. 7.—The 9,327-ton British freighter *Acra* has been torpedoed and sunk by a German U-boat off the coast of Ireland, it was disclosed tonight.

The Elder and Dempsey Lines, operators of the vessel, denied reports current in New York that the *Acra* had refugee children on board.

The official announcement of the sinking said the *Acra* was en route to Liverpool from a port in the northwestern British Isles.

The sinking was the first of a series of attacks on British shipping in the Atlantic since the outbreak of the war.

The ship sank about half an hour after being hit and rescue work was completed within 10 minutes, the announcement said.

The lives were lost when a motor lifeboat overturned on the choppy sea.

ESTIMATES OF DEPARTMENTS ARE PASSED

Consideration Is Given Number Of Bills By Finance Branch

OTTAWA, Aug. 7.—In rapid fashion last night the House of Commons approved estimates for the departments of justice, transport, public works, post office, trade, labor, revenue, and secretary of state and just before midnight turned to consideration of \$11,575,000 for the finance department.

Adjournment today until Nov. 5 appeared a sure thing. From the 8 a.m. resumption hour until midnight the commons in committee of supply approved estimates of more than \$125,000,000. At the dinner adjournment Prime Minister Mackenzie King suggested the estimate of \$125,000,000 for business was cleaned up might be adopted, even if it took until dawn to approve the estimates.

NO FORMAL MOTION

However, as the house considered finance department estimates it appeared members could get in a fair amount of discussion and still remain in the room. There was no formal motion to sit all night if necessary but unanimous consent of the house to remain past the 11 o'clock adjournment hour was expressed by Resources Minister T. A. Crerar after the evening sitting opened. He said "reasonable discussion would be exercised as to the limit of the sitting."

Estimates of \$2,440,000 for the justice department and \$3,215,000 for the Royal Mounted Police were through quickly. The post office estimates of \$18,150,000, usually the subject of lengthy debate, were approved in little more than half an hour.

Trade and commerce figures were \$5,557,000, labor costs for \$22,827,000 and these estimates were approved almost as fast as the post office department figures. Estimates for revenue department amounting to \$12,432,000 and \$797,000 for the secretary of state occupied little discussion.

ESTIMATES PASSED

From time to time top-ranking civil servants moved onto the floor of the house to help their ministers answer questions. The house yesterday put through estimates of nearly \$30,000,000 covering the external affairs department and other branches under the Prime Minister's jurisdiction and the department of mines and resources under Hon. T. A. Crerar.

Nothing remains on the order paper but estimates. In addition to the \$156,000,000 to be voted about the same amount of statutory expenditures remain to be cleared through the estimates and will be included in the final supply bill. Statutory items are seldom discussed or questioned.

Armenian Detained House Is Informed

LONDON, Aug. 7.—Detention of General Torosian, an Armenian who led his company against the Bolsheviks in 1918, was disclosed yesterday. In filing a question for reply in the House of Commons today Reginald Sorensen, Labor, said Torosian graduated from St. Cyr military school, fled from France in England a month ago to "offer his services to the British government."

MONTE CARLO CASINO OPENS DESPITE WAR

MONTE CARLO, Monaco, Aug. 7.—Monte Carlo's famous gambling casino has been reopened less than a month after the French-German armistice. For the opening last Saturday night the casino was surrounded by an orchestra of 100 and to be abandoned. There was not enough room for the musicians.

Today's War Moves

Continued from Page One. These are now heavily guarded by British forces.

The British approach toward the Nile for the Italians is along the Mediterranean coast road, within range of enemy weapons. Reports that a British force had been ordered to proceed along the coast shows quick British preparation for any Italian invading force under flanking fire.

ONLY WATER SOURCE

The first objective of an Italian advance toward the Nile would be the small Mediterranean port of Matruh, about 150 miles east of the Egyptian coast. It is the only source of drinking water an army can use which hopes to cross the northern desert. It is also the terminus of the coast railway running to Alexandria, nearly 200 miles farther east.

The defenses of Matruh are considered the outer key to Egypt, extend for 50 miles and are heavily armed. The Italians to avoid this attempt to penetrate the Egyptian desert farther south, they would find only camel trails, unsuited for the transport of a modern army.

When it is said that the Italians have invaded Egypt, it does not mean the desert, but the Nile by the far eastern western sandy stretches. Until the invasion has shown ability to overcome the initial difficulties of a desert advance, it is military intent to deny the use of the Nile as a main line to the Suez Canal.

OFFER OBSTACLES

The Italian invasion of British Somaliland is an effective operation. The frontier terrain is easily crossed but within the Gulf of Aden, the Italian defense that offer obstacles to a deep penetration. The British may not be able to offer such a defense. The British may not be able to offer such a defense. The British may not be able to offer such a defense.

PREMIER KING PARTY LEADER FOR 21 YEARS

Continued from Page One. Mr. King never stood so high in the esteem of those of his political friends as he does at this moment," he said, "and I believe he enjoys a place in the esteem of the whole country greater than he ever had."

Mr. King spoke briefly expressing his gratitude for the loyalty and support of the Liberal Party and for the goodwill shown him by members of all political parties.

The second leadership seemed short in looking back on it. "If I ask myself how it is possible," he said, "it can only be because it has been due to the associations, personal and political, I have been privileged to enjoy throughout my life."

Two main aims governed his actions. One was to preserve the unity of our country and its institutions and defend freedom in its many aspects.

Another aim was to secure a resolution "that no word of mine uttered in parliament or in political debate should ever be taken as a word in the breast of a political opponent or of anyone with whom I might be in controversy."

Nine Survivors Of Greek Vessel In Alexandria

ALEXANDRIA, Egypt, Aug. 7.—Nine survivors of the Greek steamship Roula sunk by an Italian submarine off Crete, reached Alexandria Tuesday after a five-day struggle against waves and wind, threatened to swamp the lifeboats.

Another lifeboat, containing nine men, is missing.

The survivors said their 1,044-ton ship was bound from Istanbul to Port Said with lumber when she encountered the submarine August 1.

JAPAN PLANS CONTROL OF ALL SCHOOLS

British And U.S. Institutions Must Come Under Japanese Influence

By H. O. THOMPSON
British United Press Exclusive Cable To The Edmonton Bulletin

TOKYO, Aug. 7.—Drastic control of all foreign schools is planned by the new government as part of its national renovation program. It was reported today.

As the newspaper Hochi put it, the control would be intended "to frustrate the educational colonization which the United States and Great Britain have been attempting for many years."

About 10 schools sponsored or managed by foreigners would be affected, and it was reported that all foreign schools would be transferred to Japanese subjects if they wanted to continue to operate.

FRIENDLY MEETING

Meanwhile the foreign office declared even so, developments resulting from the arrest of Britons in Japan and Japanese in the British empire, have been friendly. The Japanese ambassador, commented that a conference yesterday between Foreign Minister Yosuke Matsuoka and Robert Craigie, the British ambassador, had been held in a very friendly atmosphere.

The newspaper Asahi said that Craigie had requested the meeting to discuss the arrest of British subjects in Japan and Japanese in the British empire.

BBC BECOMES BABEL TOWER DURING WAR

LONDON, Aug. 7.—The war has made the British Broadcasting Corporation a veritable Tower of Babel. At the outset it was broadcast in nine languages, but now it is broadcast in 24 and has three main services for listeners overseas.

BRITAIN LIMITS ALL IMPORTS TO FOOD SUPPLIES

SYDNEY, Aug. 7.—Commerce Minister A. G. Cameron yesterday told Australian farmers that as a result of shipping difficulties Britain is limiting her food imports to strict essentials and said more butter, cheese, bacon and eggs are wanted while meat is not required.

He said that in view of the large wheat surplus in Australia it would not be about to cancel wheat production to continue as though there were no marketing difficulties.

He said, however, that there would be little shipping space next year for fresh fruits but that the prospects for canned and dried fruits are good.

GOVERNMENT WAR PLANTS IS U.S. ARM

Washington, Aug. 7.—A permanent munitions industry, under large but not federal government and capable of supplying an army of 2,000,000 men, emerged today as one of the major goals of the United States defense program.

Robert P. Patterson, new secretary of war, described the plan as an "innovation" the idea that most of the projected 60 ordnance plants to be built with government funds would be established on a permanent basis.

Traditionally the United States has maintained a system of government armaments which formed the nucleus of a munitions industry but which was not capable of rapid expansion in an emergency.

FOR LONG LIFE To prepare better for future emergencies, the new government powder, loading and storage plants would be designed for long life. He made it clear that the plants would be operated only for such periods as are necessary to prepare the required stocks of munitions.

The new industry has a revenue of \$24,000,000 of the \$700,000,000 given to the Ordnance Department and is contracted with the Dupont Powder plant in southern Indiana. A short-term labor supply of munitions, the necessary loading plants is proving something of a problem, Patterson said.

FOR LONG LIFE To prepare better for future emergencies, the new government powder, loading and storage plants would be designed for long life. He made it clear that the plants would be operated only for such periods as are necessary to prepare the required stocks of munitions.

H.M.C.S. Margaree Is Larger Than Lost Destroyer

OTTAWA, Aug. 7.—H.M.C.S. Margaree, latest addition to Canada's navy, is a class "D" destroyer and not one of the tribal class, it was learned Tuesday at naval headquarters.

The Margaree is replacing the H.M.C.S. Tribal lost in evacuation operations off Borneo, France. A naval spokesman said yesterday when the announcement was made that the new ship was larger than the Tribal but this was in error.

Trials class destroyers are larger than the "D" class ships. The Margaree, as one of the latter type, has a tonnage of 1,375 tons, a complement of 145 officers and men and an armament consisting of four 4.7 inch guns, six smaller guns and eight 21-inch torpedo tubes.

German authorities were said to be perturbed by the determined attitude of the American Republics and by the manner in which some Nazi officials have aroused concern in the countries where they were stationed.

A possible withdrawal of a consular staff from Berlin, however, was not expected by some well-informed persons.

U.S. ACTION Washington developments relating to foreign agents' activities included:

1.—The inter-state commission on crime demanded an investigation of what might be called "subversive use of attaches of legations and consulates for subversive propaganda and fifth column activities."

2.—The federal bureau of investigation announced its field offices would go on a 24-hour daily schedule to tap wire communications of fifth column suspects.

3.—The house passed and sent to senate a measure to permit the FBI to tap wire communications of sabotage, treason and espionage.

One German agent in the United States had been listed for early recall to Berlin was Dr. Gerhard Westrick, the commercial consul in New York, who had been reported to have received widespread publicity.

Another possibly due for a transfer was Baron Edgar von Spiegel, German consul-general at New Orleans. A remark attributed to him that Germany would not forget the aid given its enemies by the United States caused a state department inquiry.

MEASURES ADOPTED The American foreign ministers at Havana adopted a series of measures designed to check subversive activities, one of them aimed directly at diplomatic and consular agents in Latin American countries.

Reliable sources said that German diplomats of the career type favored the withdrawal of active Nazi Party members now in the diplomatic and consular service in American countries.

NAZI AVIATOR IS CAPTURED BY LADY BUCKLAND

LONDON, Aug. 7.—Lady Buckland, widow of Lord Buckland and sister-in-law of Lord Camrose, publisher of the Daily Telegraph, today captured a Nazi aviator who had been roaming England since dawn.

Lady Buckland came upon the aviator as he motored along a country road near

Colorful Punch and Cakes Just Right for Party

By MRS. GAYNOR MADDOX

Youngsters can enter the great drive for budget economy based on getting the most nutrients for the least expenditure. Let them have their parties. But make it a rule if the budget is being watched, no parties without nutrients. They can have a dry and delightful feast and still follow sound economy.

A large bowl of colorful punch and chocolate flick cups will make a perfect party menu.

RASPBERRY GRAPE PUNCH

(Serves 20)

One cup sugar, cups boiling water, 1 No. 3 can raspberries or 2 1/2 cups fresh raspberries and juice, 1 quart grape juice, 1 cup lemon juice, 1 quart carbonated water, 3 bananas.

Boil sugar in boiling water; cool. Add raspberries, grape juice, lemon juice, pour over large piece of ice. Just before serving add carbonated water and banana cut in small pieces.

CHOCOLATE FLICK CUP CAKES

(30 medium cup cakes)

One package (8 ounces) semi-sweet chocolate, 2 1/2 cups sifted cake flour, 2 1/2 teaspoons baking powder or other shortening, 1 cup sugar, egg whites, unbeaten, 1/2 cup milk, 1 1/2 teaspoons vanilla.

Cut each small square of chocolate in 4 to 6 pieces. Sift flour into measure, add baking powder and salt, and stir together 3 times. Cream butter, thoroughly, add sugar gradually and cream together until light and fluffy. Add egg whites, beat not beat them one at a time, beating thoroughly after each.

Add flour alternately with milk, a small amount at a time, beating after each addition until smooth. Add chopped chocolate and vanilla. Turn into greased cup-cake pans, filling them 2/3 full. Bake in moderate oven 175 degrees F. 20 minutes, or until done. Note: chocolate may be reduced to 1/2 package (4 ounces) if coarsely chopped.

Use the three egg yolks left from the whites used in the cup cakes.

Debunker

THE "TROJAN HORSE" WAS NOT TROJAN

Popular use of the term "Trojan horse" has led to the erroneous conclusion by many that it was something created by the Trojans. The truth is just the opposite. It was devised against the Trojans. The story goes that when the Greeks were unable to take Troy by siege, they made a wooden horse, filled with Greek soldiers, and left it at the gates of Troy. When the Trojans, believing the horse to be a gift, brought it into the city and were making camp around it, the Greek soldiers crept out of it in the night, opened the gates of the city from the inside and the Greek army rushed in to capture Troy—and to recover Helen, the most beautiful woman in the world. Compared with modern wars, the Greeks really had something to fight for!

Color for scrambled eggs for luncheon tomorrow. Combine 3 yolks with 2 whole eggs. Beat with fork until well distributed. Add salt, pepper and 1/2 cup whole milk.

Tomorrow's Menu

BREAKFAST: Seedless grapes, scrambled eggs, toast, jam, coffee, milk.

LUNCHEON: Clear tomato soup in cups, crackers, vegetable salad, hard-boiled, plum, lettuce, milk.

DINNER: Round steak, mashed potatoes, buttered beet, lettuce and green pepper salad, fruit cup, chocolate flick cup cakes, coffee, milk.

Dorothy Dix Says:

The grief of untold numbers of women is the philandering husband, and the one thing they desire to know more than anything else in the world is how to deal with him. Millions of women have tried every remedy from prayers to shotguns on their wandering spouses with but one result. They can't eliminate him. The women who are younger and better-looking than themselves. They can't get a law passed making it compulsory for husbands to wear blinders.

Therefore, it will be findings of great joy to many harassed matrons to learn that a woman has solved the riddle of how to keep a husband nailed to his own fire-side and that she gives him her tip to other suffering sisters. She writes:

"I am married to a very handsome and attractive man, who has a way with him and who has always been a very good husband. He is 35 years younger and 20 pounds lighter than I did. I was convinced that he didn't really love any of these things, so I determined to stop it."

"This is the way I did it. I went downtown and bought him a 50c ring, on which I agreed that he should pay \$5 a week. In another store I bought him a \$250 watch, which he was also to pay for at \$5 a week. Then I bought him a pin at \$250 on the same terms."

"Then I bought him some vacation lots at \$500 a piece to be paid for at \$10 a month. And I figured out that by the time he got through paying all of these things, every month he wouldn't have enough money left to take the Lady Friday many good times or give her about much."

Well, I guessed right. As soon as he found out that there were no more presents, and that the fact he could be in the future to a neighborhood movie and a hamburger stand for supper, she quit him cold.

I heartily endorse this lady's plan for dealing with her husband. There is no other such safeguard against temptation as the lack of the price.

DOROTHY DIX

Muvver say when me an' Baby is bigger we will sing nicely together, but I'm already singin' together wit' myself!

Home Service

CONFIDENT HOME NURSE KNOWS PROPER METHODS It Pays to Be on the Safe Side

FOR RUSTY NAIL

EMERGENCY FOR DIRT PATIENT

Emergency, family ill— are they times of franticly wondering what to do, trying this or that? Be on the safe side when you are the home nurse. Have correct information.

This outdoor season little bare feet may be wounded by a rusty nail. Use to call the doctor in this emergency, but meanwhile clean the wound thoroughly with soap and water, pour 10 per cent iodine and then soak the foot in hot strong Epsom salt solution.

Or perhaps you have a bed patient when the doctor has placed on a liquid diet. To keep up his strength during this time, add a small amount of food in the form of an albuminized drink.

Beat the white of an egg with a fork until broken up, but not frothy. Then stir in either orange juice or lemonade and serve to your patient. Of have a baby in the family. So many ailments can creep up from licecough to the group. Meet each one safely and surely.

Our 32-page booklet, a registered nurse gives detailed information on baby care, post-operative care, routine nursing of bed patients. Tells how to recognize and nurse contagious diseases, what to do in emergencies, common ailments, etc. in color for your copy of "What You Should Know About Nursing" To The Edmonton Bulletin Home Service, Edmonton, Alberta. Be sure to write plainly your name, address, and the name of booklet for delivery.

Please allow a week or ten days for delivery.

There are about 700 species of butterflies in the world and 54 of them have been collected by our explorers.

Today's Popular Design

By CAROL AIMES

DESIGN NO. 473—COOL BLOUSE FOR SUMMER DAYS

Criss-crossed pattern, this lovely blouse is delicately feminine in appearance.

Pattern No. 473 contains list of materials needed, illustration of the design and complete instructions.

To order this pattern, write your name and address on a piece of paper and send with 20 cents in coin to Needlework Department, The Edmonton Bulletin, Edmonton, Alberta.

Please allow a week or ten days for delivery.

SECOND SECTION

PARLEY HELD FOR OFFICERS IN SOUTH CITY

Capt. John Oliver Will
Organize Unit Of
Engineers

Officers of Non-Permanent Active Militia units in Edmonton were attending a conference at Military District 13 Headquarters in Calgary on Wednesday. It was reported by Lt.-Col. E. Brown, M.M., E.D., Edmonton area commandant.

Since all units which were mobilized and sent overseas have been authorized to send substitutes and replacements, it is estimated that the number of units at home will be increased by the new non-permanent units. The 8th Army Troops Company, Royal Canadian Engineers, will be organized here.

The N.P.A. units of the 9th Army Troops Company will be commanded by Capt. John Oliver, of the Bulletin editorial staff, who served overseas with the engineers in the first Great War. Capt. Oliver will be promoted to the rank of Major in his new command. At Calgary today he is receiving information on forming the unit.

The first unit of the 9th Army Troops Company, now overseas, was the first division Canadian Active Service Force, is commanded by Major P. L. Debeney, M.M. Other officers at the conference in Calgary are Lt.-Col. R. T. Washburn, No. 4 Casualty Clearing Station, Lt.-Col. P. S. Warren, University of Alberta contingent, C.O.T.C., Capt. C. E. Brasselet, adjutant and acting officer commanding the Edmonton Fusiliers (M.G.).

FUSILIERS
The Edmonton Fusiliers, at the regular parade Tuesday night, paraded on the drill ground at the new formation buildings in a new formation, a battalion in mass. The battalion formed up with each company facing front in close column of platoons.

City Perspires As Mercury Goes To 85-Above Mark

Tuesday's attempt on the part of the weatherman at breaking the existing heat record for Edmonton this year, was a failure. The striking distance of doing just that little thing, but was cut short when the mercury failed to rise above 80-degrees. Early indications Wednesday pointed to another effort by the heat makers to break the record, as 86 above was the temperature recorded at 8:30 p.m. and official forecast calls for "continued warm."

Overnight low was 52 above, while Tuesday's average temperature was 61 above, as compared with an average of 50 above for the same day last year. Bureau's reading at 8:30 a.m. Wednesday was 77.6, increasing.

Smoky skies were reported in the Pelican Point region, while all other points in the near north reported partly cloudy skies with light west winds early Wednesday.

City Will Study Power Pact With Calgary Company

As a result of a meeting of the city power commission at city hall Tuesday, City Commissioners R. J. Gibb and John Hodgson, together with Supt. R. G. Watson, of the city power plant, will form a committee to confer with representatives of the Calgary Power Co. to discuss a possible hook-up with that firm with a view to the company supplying the city with standby power.

G. H. Thompson, general manager of the Calgary Power Co., who had been invited to attend the meeting, expressed the opinion that the "objectionable" features of previous proposals made by the company to the city could be eliminated. It was on his suggestion that the power commission name a small committee to meet with representatives of the company to try to find a common ground for opening negotiations.

Supt. Watson reported to the commission that the English firms seemed confident that they could deliver the necessary equipment should the city decide to go ahead with its own standby system instead of making an agreement with the company. He said the firms had reported the British government was anxious to maintain as much export trade as possible and that there would likely be little hindrance to the delivery of the required equipment.

TOTAL COST
Tenders received from three English firms indicated that the total cost of installing a standby unit would amount to between \$100,000 and \$150,000. Delivery of turbines and other units from England would require approximately 60 weeks from the date of placing the order, the commission learned. The power output of the city plant has increased sharply during the past six months. Expansion of city assets, industries and the erection of a large number of new homes have been the contributing factor. A big increase in the general production of electric power in Canada as the result of the establishment of new industries and training centres throughout the entire Dominion is now in progress.

The Inquiring Reporter

THE QUESTION
Do you think people should fly the Union Jack as much as possible, as the Dominion of Canada flag? Commerce has urged citizens to have flags on the cars and houses. It is possible to fly flag staffs in front of their homes.

THE ANSWERS
CPL. A. W. CILLANDER, Edmonton Fusiliers, "People should fly the Union Jack and the Canadian flag on every occasion possible. We should display our patriotism."

VERN ERICSON, clerk: "That is a fine idea. If every citizen had a flag staff in front of his home, it would be a fine demonstration of our loyalty and patriotism."

DAVE GUNDERSON, 2nd Bn., Edmonton Regiment: "I am in favor of that proposal. The sight of the Union Jack is stirring and it would deepen our consciousness of the Empire's struggle if we flew more of them."

LAURENCE JOHNSON, retail employee: "We should fly the flag on every occasion possible. Our patriotism needs to be deepened and stimulated. We should show how loyal we feel we are, and the flag always quickens our thoughts and our efforts."

REG. BROWN, salesman: "I am well-satisfied with the flag of that plan. Flags should be seen on every house, and every school child should participate in flag-raising ceremony every day."

An adjourned inquest into the death of Herman McGillicuddy, La Riche farmer, who died allegedly from an assault by two unidentified men on June 29, was continued at the city police station Wednesday afternoon.

JUDGE HOWSON RULES ON LAW IN TRUST CASE

Court Finds Lands Worth
\$25,000 Returned To
Fraser Family

An important point in the law of trusts was decided by Mr. Justice W. R. Howson of the Supreme Court of Alberta, in a lengthy judgment handed down Wednesday.

The judge held that a promise made by Allen Fraser to his brother, Simon Fraser, when the latter was making his will that the lands in Alberta given to him by Simon in his will would be held in trust for the children of another brother, Frederick Fraser, was valid.

AWARD TO PLAINTIFFS
He awarded the lands, which include several half sections near St. Albert, valued at approximately \$25,000, to the plaintiffs, Isabel May, Millicent, Tena Fraser and Malcolm Fraser, children of Frederick Fraser, suing on behalf of themselves and all other children of the late Robert Fraser.

Allen Fraser did not carry out the arrangement made with his brother, Simon Fraser, who died in 1910, and found, but by his will, after leaving some small bequests to the children of his brother, he left the bulk of his estate to different Roman Catholic organizations.

The action was brought by the children of Frederick Fraser for a declaration that Allen Fraser was a trustee for them of all the lands in Alberta, which were in the possession of Allen Fraser, and for a declaration that Allen Fraser was a trustee for them of all the lands in Alberta, which were in the possession of Allen Fraser, and for a declaration that Allen Fraser was a trustee for them of all the lands in Alberta, which were in the possession of Allen Fraser.

LEGAL COUNSEL
Counsel for the plaintiffs were Neil D. Maclean, K.C., and B.M. Berney. Acting for the defendant was G. B. O'Connor, K.C., and Bruce Whittaker, for the Roman Catholic institutions who were defendants and beneficiaries of the will of Allen Fraser, R. D. Tighe, K.C., for Allen Fraser, and a statement of May Johnson and for David Cameron, George Parney.

Big Crop Forecast In Mullen Report: Better Than 1939

Alberta's crop prospects continue to show improvement, according to the fortnightly crop report of the provincial agriculture department, released Wednesday by authority of Hon. D. B. Mullen, minister of agriculture. Harvesting is expected to commence August 12.

The report states that "if normal weather prevails throughout the harvesting season, and frost does not occur, it is reasonable to expect the production of wheat to be considerably higher than that of last year."

It is further stated that since the last report "rains have occurred in districts where moisture was lacking and showers have maintained ideal moisture conditions, wheat crops are in good condition and ripening is desired."

"Grain crops are also making good progress, but limited reports from several districts where heavy growth has occurred. Prospects of high yields of oats and barley are good."

WHEAT HARVEST
It is reported that wheat harvesting in the south is expected to start within the next few days and become general in that district about August 12. Harvesting in the rest of the province is expected to commence about Aug. 24.

Grain damage has been slight but hay crops have suffered from the wet weather. Although hail was reported near Bowden, Stettin, Strathmore and south of Hanna and Youngstown, the average was small. Grasshoppers continued to cause a fall in the extreme southeast.

DAMAGE
Damage estimated as high as 30 per cent in some districts was reported in the hay crop. In no cases will there be a shortage on account of such losses.

Increases were reported in the wheat and barley averages with the reduction in the oats acreage. Wheat acreage increased to 8,667,000 in 1939, from 8,375,000 in 1938. Barley acreage increased to 1,115,000 from 1,000,000 in 1938. Oats acreage was down to 2,345,000 from 2,700,000 in 1938.

Excellent pasturage brought a slight increase in dairy production and continued the good ability of livestock. Some grain cattle were reported moving to market.

NO SHORTAGE
M. W. Robertson, general superintendent in the provincial employment service of Canada, said Wednesday no shortage of harvest labor was expected. "Reports that I have received show that men are being sent out daily to farm jobs. On some days as many as 50 or 60 have been sent," he said.

Calling up of men for military training under the War Measures Act is not expected to interfere with harvesting work, as operations will likely be completed by October 1.

Word has been received here by Mr. Harry Bannan, 10152 94A street, west of St. Harry Bannan now serving overseas with the Edmonton Regiment, of injuries sustained by his husband, an accident at St. Harry Bannan suffered a fractured leg and is now in hospital somewhere in England. Nature of the accident was not revealed. St. Bannan left the city for active service last December.

**Flower Show To
Open August 14
At Beverly Hall**

Anticipating broken records both in entry and attendance figures, the Beverly Horticultural Society opens a serious flower show on Wednesday, August 14, to continue through till the following evening.

Judge A. V. G. Bury will open the show at the Beverly town hall. All interested contestants are advised to have their entries in by Thursday, August 8.

The children's section was one of the outstanding features of last year's show. While the date was good last year, however, the committee in charge is confident that the entries this year will have a higher quality and be in greater quantity.

SETTING OF BREAD PRICE IS WELCOMED

Bakers Satisfied If Processing Tax Shared
By Millers

In a statement issued at Calgary, H. Hindsley, secretary of the Alberta Bakers' Association, said that bakers generally will welcome stabilization of bread prices if the cost of the wheat processing tax is equitably distributed between bakers and millers.

Since July 23 Alberta bakers have the entire tax, and since August 15, in commenting on the wartime bread and trade board order today, bakers were eliminated of bread prices. The order stated bakers and millers are to share the levy of 70 cents a bushel (about 15 cents a bushel) on about 15 million bushels of wheat.

The order followed the Alberta Association's decision to cut down on services. Among suggestions were elimination of bread stamps, use of cheaper paper in wrapping, and decrease in number of carriers, while maintaining standard of bread.

**English Children
Arrive To Stay
With Relatives**

Coming thousands of miles to escape the possibility of grain destruction, which threatens their homes in England, Jean Hoffman, 8, and Robert with Mother, 7, arrived in Edmonton from England Tuesday over the C.N.R. The two children are looking forward to their stay here with relatives, Jean Hoffman, a relative, at Clive, Robert will stay with his uncle and Mrs. E. L. Mills of Edmonton.

Arrive To Stay
With Relatives**

Coming thousands of miles to escape the possibility of grain destruction, which threatens their homes in England, Jean Hoffman, 8, and Robert with Mother, 7, arrived in Edmonton from England Tuesday over the C.N.R. The two children are looking forward to their stay here with relatives, Jean Hoffman, a relative, at Clive, Robert will stay with his uncle and Mrs. E. L. Mills of Edmonton.

West Pointers Attend "Night School"

West Point cadets became "night school" students recently when they participated in a simulated anti-aircraft practice at Fort Hancock, N. J. They are pictured above blasting away with their own anti-aircraft guns.

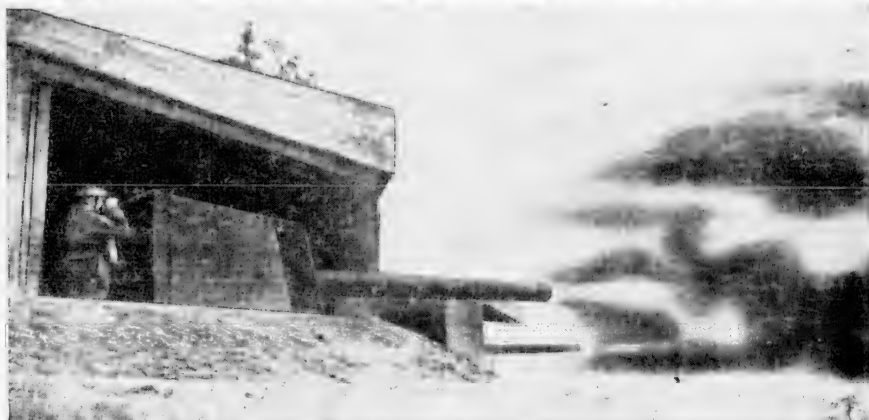

U.S. Trains Its First 'Chute Troops in New Jersey

Parachute troops will land in New Jersey, it is reported, as part of a series of exercises that will be held at Fort Hancock, N. J. The first of these exercises is being held at present. The troops are being trained in the use of parachutes and in the landing of troops from aircraft.

R. B. and Lady Astor Hold An Informal Chat

The Rt. Hon. R. B. Bennett, chairman of the Canadian Red Cross Society, is shown chatting with Lady Astor and two others on the occasion when he formally turned over the \$1,000,000 Canadian Red Cross Hospital, recently completed in Buckinghamshire, The hospital was built with funds subscribed by Canadians.

The British Bulldog Barks Defiance

Here is Britain's defiant answer to Adolf Hitler's boast of conquest—the blast of coastal defense guns from English Channel cliffs. Invading German troops must effect successful landings on beaches far below under rain of shells from hundreds of guns along those cliffs.

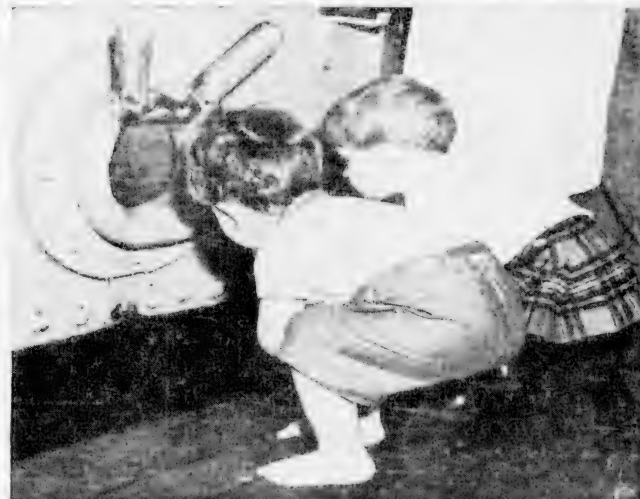

Saba And Roba

The girls, who are from the town of Palermo in Sicily, are charged with the task of making the town a more attractive place. They are shown above in a "fashion show" which they have organized for the purpose of raising money for the war effort.

Sidewalk Gardener

A woman who has been called a "sidewalk gardener" is shown above. She is a member of the "Garden of the World" and is working on a project to create a garden in the city of New York.

First Peep At America

British Claim Nazis Misuse Red Cross

According to British censor's caption accompanying this photo, it shows one of two German hospital planes recently forced down by British airmen. The Air Ministry says the planes were carrying Red Cross supplies. The caption also says that the planes were carrying Red Cross supplies. The caption also says that the planes were carrying Red Cross supplies.

Succeeds Parley

The man who has succeeded Parley is shown above. He is a member of the "Garden of the World" and is working on a project to create a garden in the city of New York.

Pans Into Planes

"Tommy-Gun" For British Tommies

The man who has panned into planes is shown above. He is a member of the "Garden of the World" and is working on a project to create a garden in the city of New York.

Hull Signs Havana Pact

The U. S. Secretary of State Cordell Hull is shown signing the Havana Pact. The pact is a declaration of the Monroe Doctrine and provides for "trusteeship" over foreign colonies in the Western Hemisphere.

Looking Them Over

By Jack Kelly
Three Cheers
Pancho's Way
Black Gold

RACING fans in these days are not as infatuated with the animal as they were in the early days of the century. The average horse owner is more likely to be a sportsman than a gambler. The average horse owner is more likely to be a sportsman than a gambler.

The preference for longer races is easily understood. To begin with it gives the better horse action for his money and it makes money business less likely to creep in. Furthermore if this "improvement of the breed" talk means anything at all, then distance events are the ones that will do the trick.

There is a certain amount of truth in the statement that the average horse owner is more likely to be a sportsman than a gambler. The average horse owner is more likely to be a sportsman than a gambler.

Sport Still Far From Dead on England's Fields

LONDON, Aug. 7.—English sport took it on the chin when France, reeling under the Nazi blitzkrieg and internal political rot, threw in the towel, but in his typically stubborn manner the average Englishman received the "no more racing" ultimatum with a shrug.

Public Here Opposes Programs of Sprints

CONDITIONS for the first three days of racing, which began Saturday at the Exhibition grounds, were distributed to the horsemen Wednesday morning. The opening day's card calls for seven races, none over a distance less than six and one-half furlongs. Catering to popular demand, Secretary Schilling is endeavoring to lengthen out the distance of the races. This year there are plenty of route runners on the circuit and at this late date in the prairie season there should be several new ones trying their ability over the longer distances.

For the opening day program there is a race for four-year-olds and upward at the long mile and three furlongs distance. It is hoped before the seven days of sport are completed that it will be possible to offer a race at two miles.

CALGARY BOWLERS BEAT SMITTON IN DOUBLES

Charm Fails to Help Phillie Win From Reds

PHILADELPHIA, Aug. 7.—The Phillies tried a "good luck charm" Tuesday in an effort to end their six-game losing streak but it failed and Boston Red won a National League doubleheader 3-0 and 12-2 largely due to Salvo's pitching and Miller's home runs.

After Manuel Salvo, aided by Eddie Miller's two-run homer, blanked the Phils with four hits in the opener an eight-year-old boy was brought into the Phillies clubhouse. All hands, from Manager Doc Frothingham, rubbed his head for "luck."

Salvo pitched the second half of a five-inning game, but Kirby Higbe blew it. Miller made a home run in each game.
